You start with the following equipment, in addition to the equipment granted by your background:

- (a) a martial weapon and a shield or (b) two martial weapons
- (a) five javelins or (b) any simple melee weapon
- (a) a priest's pack or (b) an explorer's pack
- Scale mail and a holy symbol

CAMERADERIE

Starting at 1st level, at the start of your turn, if you are within 10 feet of an humanoid ally and also within 10 feet of a hostile creature you heal an amount equal to 1d6 + your Pegasus Knight level. This increases to 2d6 at 11th level and 3d6 at 17th level.

FIGHTING STYLE

Starting at 1st level, you adopt a particular style of fighting as your specialty. Choose one of the following options. You can't take a Fighting Style option more than once, even if you later get to choose again.

BLESSED WARRIOR

You learn two cantrips of your choice from the cleric spell list. They count as pegasus knight spells for you and Charisma is your spellcasting ability for them. Whenever you gain a level in this class, you can replace one of these cantrips with another cantrip from the cleric spell list.

BLIND FIGHTING

You have blindsight with a range of 10 feet. Within that range, you can effectively see anything that isn't behind total cover, even if you're blinded or in darkness. Moreover, you can see an invisible creature within that range, unless the creature successfully hides from you. Defense. While you are wearing armor, you gain a +1 bonus to AC.

DUELING

When you are wielding a melee weapon in one hand and no other weapons, you gain a +2 bonus to damage rolls with that weapon.

GREAT WEAPON FIGHTING

When you roll a 1 or 2 on a damage die for an attack you make with a melee weapon that you are wielding with two hands, you can reroll the die and must use the new roll, even if the new roll is a 1 or a 2. The weapon must have the two-handed or versatile property for you to gain this benefit.

INTERCEPTION

When a creature you can see hits a target, other than you, within 5 feet of you with an attack, you can use your reaction to reduce the damage the target takes by 1d10 + your proficiency bonus (to a minimum of 0 damage). You must be wielding a shield or a simple or martial weapon to use this reaction.

PROTECTION

When a creature you can see attacks a target other than you that is within 5 feet of you, you can use your reaction to impose disadvantage on the attack roll. You must be wielding a shield.

WEAPON MASTERY

Your training with weapons allows you to use the Mastery property of two kinds of Reach weapons of your choice, such as Halberds and Glaives. Whenever you finish a Long Rest, you can change the kinds of Reach weapons you chose. For example, you could switch to using the Mastery properties of Spears and Quarterstaves.

In addition, you now have the Double Sided property as an option when selecting Mastery properties.

SPELLCASTING

By 2nd level, you have learned to draw on divine magic through meditation and prayer to cast spells as a cleric does.

Preparing and Casting Spells The Pegasus Knight table shows how many spell slots you have to cast your pegasus knight spells. To cast one of your pegasus knight spells of 1st level or higher, you must expend a slot of the spell's level or higher. You regain all expended spell slots when you finish a long rest.

You prepare the list of pegasus knight spells that are available for you to cast, choosing from the pegasus knight spell list. When you do so, choose a number of pegasus knight spells equal to your Charisma modifier + half your pegasus knight level, rounded down (minimum of one spell). The spells must be of a level for which you have spell slots.

You can change your list of prepared spells when you finish a long rest. Preparing a new list of pegasus knight spells requires time spent in prayer and meditation: at least 1 minute per spell level for each spell on your list.

Additionally, you gain Find Steed and Find Greater Steed as prepared spells once you reach level 3 and 9 respectively.

SPELLCASTING ABILITY

Spell save DC = 10 + your proficiency bonus + your Charisma modifier

Spell attack modifier = your proficiency bonus + your Charisma modifier

Spellcasting Focus You can use a two handed weapon or your mount as a spellcasting focus for your pegasus knight spells.

UNWAVERING MARK

Starting at 3rd level, you can menace your foes, foiling their attacks and punishing them for harming others. When you hit a creature with a melee weapon attack, you can mark the creature until the end of your next turn. This effect ends early if you are incapacitated or you die, or if someone else marks the creature.

While it is within 5 feet of you, a creature marked by you has disadvantage on any attack roll that doesn't target you. At level 18, this increases to 15 feet.

In addition, if a creature marked by you deals damage to anyone other than you, you can make a special melee weapon attack against the marked creature as a bonus action on your next turn. You have advantage on the attack roll, and if it hits, the attack's weapon deals extra damage to the target equal to half your pegasus knight level.

Regardless of the number of creatures you mark, you can make this special attack a number of times equal to your Strength modifier (a minimum of once), and you regain all expended uses of it when you finish a long rest.

COMBAT STYLE

At level 3, you choose the direction that you will channel your magic. Will you choose to be a Dark Flier and harness harmful magics or a Griffon Rider and choose protective and augmentory magics? Each subclass has a list of spells that are always prepared for you.

BORN TO THE SADDLE

Starting at 3rd level, your mastery as a rider becomes apparent. You have advantage on saving throws made to avoid falling off your mount. If you fall off your mount and descend no more than 10 feet, you can land on your feet if you're not incapacitated.

Finally, mounting or dismounting a creature costs you only 5 feet of movement, rather than half your speed.

ABILITY SCORE IMPROVEMENT

When you reach 4th level, and again at 8th, 12th, 16th, and 19th level, you can increase one ability score of your choice by 2, or you can increase two ability scores of your choice by 1. As normal, you can't increase an ability score above 20 using this feature.

MARTIAL VERSATILITY (OPTIONAL)

Whenever you reach a level in this class that grants the Ability Score Improvement feature, you can replace a fighting style you know with another fighting style available to pegasus knights. This replacement represents a shift of focus in your martial practice.

EXTRA ATTACK

Beginning at 5th level, you can attack twice, instead of once, whenever you take the Attack action on your turn. The number of attacks increases to three when you reach 11th level in this class.

MAGICAL ATTACKS

Starting at 6th level, your attacks are magical with nonmagical weapons.

WARDING MANEUVER

At 7th level, you learn to fend off strikes directed at you, your mount, or other creatures nearby. If you or a creature you can see within 5 feet of you is hit by an attack, you can roll 1d8 as a reaction if you're wielding a melee weapon or a shield. Roll the die, and add the number rolled to the target's AC against that attack. If the attack still hits, the target has resistance against the attack's damage.

You can use this feature a number of times equal to your Constitution modifier (a minimum of once), and you regain all expended uses of it when you finish a long rest.

HOLD THE LINE

At 10th level, you become a master of locking down your enemies. Creatures provoke an opportunity attack from you when they move 5 feet or more while within your reach or enter your reach, and if you hit a creature with an opportunity attack, the target's speed is reduced to 0 until the end of the current turn.

FEROCIOUS CHARGER

Starting at 14th level, you can run down your foes, whether you're mounted or not. If you move at least 10 feet in a straight line right before attacking a creature and you hit it with the attack, that target must succeed on a Strength saving throw (DC 8 + your proficiency bonus + your Strength modifier) or be knocked prone.

You can use this feature only once on each of your turns.

VIGILANT DEFENDER

Starting at 19th level, you respond to danger with extraordinary vigilance. In combat, you get a special reaction that you can take once on every creature's turn, except your turn. You can use this special reaction only to make an opportunity attack, and you can't use it on the same turn that you take your normal reaction.

TO THE RESCUE

Starting at 7th level, if an ally within 30 feet is hit with an attack you can use your reaction to move up to your movement speed towards the enemy that hit them and make an attack roll against them. If this attack hits, their speed is reduced 0 until the end of their next turn.

TANDEM COMBAT

Starting at 15th level, your mount gains the ability to aid you in combat. Once on each of your turns, your mount can give you advantage on a single attack roll or impose disadvantage on the next attack roll targeting you. Additionally, your mount can take an attack for you that would hit you, taking double the damage of the attack but you take none.

MOMENTUM STRIKE

Starting at 15th level, When you move at least 20 feet towards a creature in a straight line, you can make a single attack as a free action against that creature. You can move through that creature's space this turn and

you do not provoke opportunity attacks from that creature this turn.

MOUNTED WEAPON

At 20th level, when you make an attack against a creature while mounted or within 10 feet of your mount, your mount can make an attack against the same creature as part of the same action. Your mount has advantage on that attack and uses your proficiency bonus.

Additionally, when your mount hits a creature with an attack, if you are conscious, it deals additional damage equal to your charisma modifier.

WEAPON PROPERTIES
